

We build Eco Friendly,
energy efficient
"GREEN" homes on
rock solid foundations

WHO WE ARE

We are the builders of affordable and remarkable prefabricated modular LOW COST HOMES.

Modular Homes have no design limitations. They can be built for accessible living and designed to your specification for future conveniences.

Steel frames are being used for homes which are stronger than traditional homes and can withstand over 250 Km/h wind and magnitude 8 earthquakes.

OUR PROJECTS

Located at La Feuille, Gros Islet,
St. Lucia

CONDOMINIUMS

Common grounds and common areas within the complex are shared jointly.

HOUSE AND LAND PACKAGES

Individual designs are flexible to allow for your input to achieve the home of your dreams.
